No. 123 | Date: 24.2.2023

**TO WHOM IT MAY CONCERN**

I am pleased to write this letter of recommendation in favor of **Mr. Abdul Wahid Khan Registration No. 15-Arid-5254** who has been a student of mine during his under graduate studies. I have taught him the core course of B.Sc (Hons) Food Technology. He has completed his degree program in first class with appreciable CGPA 3.41. His hard work got him good grades in most of the studied courses. He has shown a humble attitude towards his teachers as well as fellow students. He also carries strong research aptitude and can learn things quickly with good interpersonal skills. He used to put in extra hours as necessary in order to meet specific academic deadlines. I have also discovered him to be perseverant and enthusiastic in studies and extracurricular activities. Therefore, I have no hesitation to recommend him for higher studies/fellowships in Food Science & Technology offered by different international institutions.

Sincerely,

**DR. KASHIF SARFRAZ ABBASI**  
Assistant Professor  
Institute of Food And Nutritional Sciences  
PMAS-Arid Agriculture University, RWP

**Dr. Kashif Sarfraz Abbasi**

(Assistant Professor)

Institute of Food & Nutritional Sciences
